

**October 27-29, 2026**

**Durham, North Carolina, USA**

# Sponsorship Prospectus

**Join us to celebrate 15 Years of Advancing Innovation!**

Sponsors of the American Society for Cellular and Computational Toxicology 15th Annual Meeting, can **connect with over 150 expected registrants** and show their **support for New Approach Methodologies (NAMs)**. Established in 2010, the ASCCT is a scientific society dedicated to the promotion of toxicology testing and research that **reduces and replaces the use of animals**. Annual Meetings feature the latest NAMs science, active discussions on challenges and success stories, case studies, peer recognition, professional guidance, and networking opportunities for attendees at all career stages.

This meeting is a **focused gathering** for networking and engaging with key stakeholders. Scientists and students from across **academia, regulatory agencies, and industry**, all working on the development and implementation of **NAMs for regulatory toxicology**, come together for this three-day meeting to share ideas, bridge research gaps, and create opportunities for implementation of NAMs. Opportunities for sponsor engagement are available throughout the meeting.
